at the Indy 100

BASKETBALL ANKLE BRACING. *EVOLVED.*

You have no doubt tried - and been discouraged by - century old lace-ups that provide little if any support or bulky, rigid ankle braces that restrict your performance. The Ultra Zoom® is the first hinged cuff performance ankle brace designed specifically for basketball players. Help PREVENT ankle injuries all season long with this lightweight, low profile, tight fitting performance brace. Performathane® custom-fit technology uses body heat to form-fit to your ankle for enhanced comfort and long lasting support.

All-Out Performance
